

Photographic Illustrations

Work Station: outside of the experimental room.
Digital scale was used to measure weighbacks.

Jugs: cleaned and left to dry outside of the experimental room.

Buckets: used to prepare electrolyte treatments.

Photographic Illustrations

Experimental Room: pens labelled numerically.
Each pen housed three piglets (not shown in the photograph).

Cameras: attached to the ceiling, directly over pens.

Pens (looking down). In pen 6, one piglet is resting, one is drinking and another is feeding. For more detail please see video.
