

THE DIFFERENTIAL APTITUDE TESTS AS  
PREDICTORS IN EDUCATION I AT  
THE UNIVERSITY OF MANITOBA

---

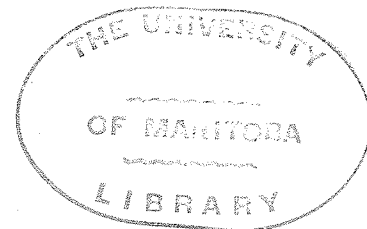

A Thesis  
Presented to  
the Faculty of Education  
The University of Manitoba

---

In Partial Fulfilment  
of the Requirements for the Degree  
of Master of Education

---

by  
David Friesen  
August 1958

### ACKNOWLEDGMENT

The writer expresses his sincere gratitude to Dr. W. H. Lucow for his invaluable assistance in the writing of this thesis. Not only did the thesis arise out of the suggestion of Dr. Lucow, but it was also written under his constant guidance. The writer expresses his appreciation especially for the frequent words of encouragement.

A special word of gratitude also goes out to Dean M. E. Laserte. The constructive, yet encouraging remarks, together with the critical evaluation aided the writer to present the findings in the proper perspective.

Finally a word of appreciation goes forth to all the faculty members, past and present, who have directly or indirectly inspired and aided in the development of this research. Included in this are all the lecturers under whose guidance the writer has enjoyed the many and varied ideas on education.
