

THE FRACTIONATION AND STUDY OF CASTOR BEAN PROTEINS
USING A FILTER PAPER ELECTROPHORESIS METHOD

A Thesis
Submitted to
the Faculty of Graduate Studies and Research
University of Manitoba

In Partial Fulfillment
of the Requirements for the Degree
Master of Science

by
Peter Arnold Adie B.Sc. (Honours)
April 1952

ACKNOWLEDGEMENTS

The author wishes to express most sincere thanks to Dr. A. D. Robinson under whose guidance and direction this study was carried out.

Thanks are also tendered to Dr. J. Doupe of the Department of Physiology, Faculty of Medicine, University of Manitoba, who very kindly provided animals for the toxicology section of this report.

Particular thanks are due to Mr. Ivan Coleman, M.Sc., of the St. Boniface Hospital, St. Boniface, Manitoba who was instrumental in bringing to notice the method of electrophoresis used in this investigation.

TABLE OF CONTENTS

	PAGE
INTRODUCTION	1
REVIEW OF LITERATURE	4
THEORY AND PRINCIPLE OF THE METHOD	10
EXPERIMENTAL	14
Design of the Apparatus	14
Electrical Supply	18
Extraction of Protein	19
Selection of Filter Paper	19
Procedure of Electrophoresis	20
Dyeing Procedure	20
Selection of Buffer	21
Fractionation of Castor Bean Proteins	21
Estimation of Per Cent Protein	24
Elution of the Protein Fractions	24
Isolation of the Protein	28
Toxicity Tests	28
Qualitative Agglutination Tests	28
Classification Tests	30
Isoelectric Point Determinations	37
DISCUSSION	45
SUMMARY	49
