

AN ISOTOPIC STUDY OF
CINE-SUBSTITUTION IN LIQUID AMMONIA

by
Peter J. Krueger

A Thesis Submitted to the
Faculty of Graduate Studies and Research
of the University of Manitoba
In Partial Fulfillment of the Requirements
For the Degree of Master of Science

May 1956

'As we conquer peak after peak we see in front of us regions full of interest and beauty, but we do not see our goal, we do not see the horizon; in the distance tower still higher peaks, which will yield to those who ascend them still wider prospects, and deepen the feeling, the truth of which is emphasized by every advance in science, that: "Great are the Works of the Lord".'

- Sir J. J. Thomson (61)
