

Figure 2.3 Boxplot of breeding timing (number of days from arrival to first egg date) of purple martins at seven colonies. From south to north (left to right) boxes represent FL=Florida (n=11), VA=Virginia (n=4), NJ=New Jersey (n=6), PA=Pennsylvania (n=9), SD=South Dakota (n=6), MN=Minnesota (n=3), AB=Alberta (n=25). X-axis in order of increasing latitude but not to scale.
