

Previous publication or submissions:

I had a conference article named “Solid Waste Management in First Nations Communities” had been available online and I added as “previous publication”

Also, there are another 3 of my papers have been submitted to journals which are part of my thesis, they are:

“COD Removal from Biologically Stabilized Landfill Leachate Using Advanced Oxidation Processes (AOPs)”

“Phytoremediation of Landfill Leachate by Using *Puccinellia Nuttalliana* and *Typha Latifolia*”

“Phytoremediation of waste dumping site soil and landfill leachate by using cattail (*Typha latifolia*)”

Since the last 3 papers were just submitted recently and I assume they are still under process and not available online yet, so I didn't add these 3 papers as “previous publication” on this Myspace system, but I would like to put this description just in case.
